

EMA K00... BREAKABLE COUPLINGS

RELATED STANDARDS

FAA : Breakable couplings are in accordance with FAA specifications AC 150/5345-46A 3.4.2.1

APPLICATIONS AND FEATURES

➤ Airport lights are mounted on breakable couplings to protect the aircraft from damage in case of hitting a light. Couplings are produced according to the light type. They can resist bending moments up to 204 Nm but will break before 678 Nm.
